MDLE

240 W. Main Street
Suite 312
Charlottesville, VA 22902

MDLE GmbH

Hahnstrasse 70
60528 Frankfurt

Core Competencies: MDLE specializes in delivering innovative, mission-critical architectural and planning solutions for the Department of Defense (DoD). With a deep understanding of military operations, security requirements, and the unique demands of federal projects, MDLE designs environments that enhance functionality, support operational readiness, and ensure long-term sustainability. From secure facilities and training centers to operational headquarters, the company seamlessly integrates cutting-edge technology with proven design strategies, creating spaces that serve both people and mission. MDLE's focus is on precision, reliability, and adaptability, ensuring that each project meets the evolving needs of the DoD while being delivered on time and within budget.

- Architectural design services (all phases including Concept, DD, CD, and CA)
- Requirements based design development & documentation
- Planning Services, DD1391 Development & Parametric Cost Estimating
